

BILLYCOLE

Front end developer. Top end UX thinker. Lover of all things creative.

EXPERIENCE

Desmos

Open Source Contributor

June 2019

Worked as part of a team of developers making contributions to open source React/Redux application GIFsmos - utilizing Agile methodology to maximize productivity. Added features and functionality to the UI. Wrote robust tests using Jest/React Testing Library, increasing test coverage from 50% to 80%.

Five-Star

Audio-Visual Technician

January 2016 - December 2017

Fast paced work environment at a luxury hotel handling setup, operation, and teardown of various audio, video, and lighting systems.

Freelance

Recording Engineer + Creative Director

June 2009 - December 2017

Recorded, mixed, and provided creative direction for various musical artists.

PROJECTS

GIFsmos

Open source React application used to create animated GIFs via Desmos graphing calculator. Redux used to provide a single source of state.

Jobly

Full stack job search application with a React front end, Express back end API, and PostgreSQL database. Token based authentication.

VistaMaps

Full stack application for sharing and finding photography locations. EJS front end, Express back end, and MongoDB database. Google Maps API implementation.
